Laboratory Activity #1: **Python Program**

Name: Ronn Carlos A. Caniya Course, Yr. & Sec: BSIT 4-1
Student Number: 202304714 Date: 8/19/26

Laboratory Grading Rubric			
Criteria	Definition	Points Possible	Earned Points
Discussion	Student was able to follow directions given in activity.	20	
Skills	Student was able to program with no syntax error.	40	
Understanding	Student designed the appropriate structures of script.	30	
Work Attitude	Student work independently and show much effort in going beyond the scope of the class activity.	10	
Total		100	

OBJECTIVE/S:

1. Review the basic syntax of Python.
2. Create a Python program that performs basic arithmetic operations.
3. Test and run the program to verify that it displays the correct output.

PROCEDURE/S

Write a program that will ask the user to input two (2) numbers and perform the following arithmetic operations:

- Addition
- Subtraction
- Multiplication
- Division

Submission Requirements:

- Take a screenshot of your source code and program output.
- Insert the screenshots into a document.
- Save the document as a PDF file.
- Use the following filename format: Lastname_LAB1.pdf

Deadline: August 25, 2026 11:59pm

CODE:

```
calcu.py > ...
1  num1 = float(input("Enter first number: "))
2  num2 = float(input("Enter second number: "))
3
4  print("\nChoose an operation:")
5  print("1. Addition")
6  print("2. Subtraction")
7  print("3. Multiplication")
8  print("4. Division")
9
10 choice = input("Enter your choice (1-4): ")
11
12 if choice == "1":
13     result = num1 + num2
14     print("\nResult:", result)
15
16 elif choice == "2":
17     result = num1 - num2
18     print("\nResult:", result)
19
20 elif choice == "3":
21     result = num1 * num2
22     print("\nResult:", result)
23
24 elif choice == "4":
25     if num2 != 0:
26         result = num1 / num2
27         print("\nResult:", result)
28     else:
29         print("\nError: Cannot divide by zero.")
30
31 else:
32     print("\nInvalid choice. Please choose 1-4.")
33
```

OUTPUT:

Enter first number: 25
Enter second number: 45

Choose an operation:

1. Addition
2. Subtraction
3. Multiplication
4. Division

Enter your choice (1-4): 1

Result: 70.0

Enter first number: 95
Enter second number: 45

Choose an operation:

1. Addition
2. Subtraction
3. Multiplication
4. Division

Enter your choice (1-4): 2

Result: 50.0

```
Enter first number: 95  
Enter second number: 46
```

```
Choose an operation:
```

1. Addition
2. Subtraction
3. Multiplication
4. Division

```
Enter your choice (1-4): 3
```

```
Result: 4370.0
```

```
Enter first number: 85  
Enter second number: 85
```

```
Choose an operation:
```

1. Addition
2. Subtraction
3. Multiplication
4. Division

```
Enter your choice (1-4): 4
```

```
Result: 1.0
```

```
Enter first number: 8  
Enter second number: 0
```

```
Choose an operation:
```

1. Addition
2. Subtraction
3. Multiplication
4. Division

```
Enter your choice (1-4): 4  
ERROR!
```

```
Error: Cannot divide by zero.
```
